I'm passionate about using technology to solve real-world problems and make a positive impact on society. At the beginning, I was content with using Java and JavaScript, but during my training, I was introduced to .NET and MsSQL and found that I really enjoy working in that areas. I now have a strong affinity for .NET and MsSQL and would be happy to work in this field. Seeking a responsible position to begin my career in a high-level professional environment with a perfect guidance where my skills will be useful for achieving goals.

WORK EXPERIENCE

SOFTWARE DEVELOPER INTERN @ IT FUNCTION

December 2022 - June 2023
